

DSK Music

virtual instruments

summer catalogue

Hello all!

Already the summer has come, and I have released enough new instruments this years...
I have encouraged to create this small catalogue with all of them.

I will go updating it from time to time, so if you are interested, you can download it periodically..
at least in every season of the year! :)

You can visit my web www.dskmusic.com to be kept informed.

All my instruments were, they are and they will be always free.
Of all forms, any type of Paypal donation will be been grateful very much.

You can do it from my web, pressing the Paypal button at top menu:
For other methods, contact me across email.

Nothing more, only thank you for everything...

I wish you to enjoy my small creations!!!

Víctor Márquez - aka DSK Music
dskmusic@gmail.com

* The instruments are listed in released order, from more recent to older.

DSK SaxophoneZ

New released!!

Saxophone module.

Features:

- 3 sax type:
Soprano, Alto & Tenor
- Velocity response
- Amp. envelope and micro-detuner
- HP/LP Filter
- 2 Fx (reverb & chorus)

[info & download](#)

DSK Ethereal PadZ

New released!!

Sound module.

Featuring celestial pads.

Features:

- 2 Layer with 22 Pads sounds
- ADSR, Fintunnig and Pan control
- 2 Advanced Filter, with ADSR
- 2 LFO routing to Cut, Pan, Level and Pitch
- Chorus effect
- Reverb Effect
- Velocity response

[info & download](#)

DSK Virtuoso

Multi MIDI channel sound module.
Featuring classic instruments.

With DSK Virtuoso you can play great combinations of 6 layer instruments, or play a composition up to 6 different parts, through the MIDI channels selectors.

Features:

- 6 Instrument layers
- Midi channel assignable to each one
- ADSR, level and Pan control for each layer
- 40 instruments in 6 categories
- 2 Send Fx (Chorus & delay)
- 1 Master reverb Fx
- Velocity response

[info & download](#)

DSK Chaos Theory

Analog classic synth.

Features:

- 2 Oscillator
- LFO
- Multimode Filter
- Chorus effect
- Chaos button
- Velocity response
- Preset manager

[info & download](#)

DSK DrumZ AkoustiK

Acoustic drums sound module.

Features:

- 8 sound slots (C3 to C4 white keys)
- Level and pan control
- Master amp. envelope (ADSR)
- 8 stereo outs
- 85 high quality samples
- 4 full kits + extra sounds
- Midi automation
- Velocity response
- Preset selector

[info & download](#)

DSK Oranze

Experimental Synth.

Features:

- 2 OSC, 135 waveforms*
- Phase mod.
- Amp. envelope
- Octave selector and microtuning
- 2 multi-mode Filter
- 2 LFO's with 5 waveforms
- 1 extra LFO, with waveforms
- LFO Routing Matrix
- Note sequencer (32 steps)
- Gate Sequencer (16 steps)
- Light delay effect
- Midi automation
- Velocity response
- Preset manager
- Preset and step seq. "one click generator" (randomize button)

[info & download](#)

*User can edit waveforms with mouse drag

DSK Darkness Theory

Ambient music Synth.

Features:

- 3 advanced OSC with 53 waveforms
- octave and pan selector
- Amp. envelope and micro-detuner
- 3 HP/LP advanced pole Filter
- 3 LFO with output routing
- Midi automation
- Velocity response

[info & download](#)

DSK DrumZ BeatVoiZe

Human beat box sound module.

Features:

- 8 sound slots (C3 to C4 white keys)
- Level and pan control
- 8 stereo outs
- 26 samples
- 3 kits
- Midi automation
- Preset selector

[info & download](#)

DSK AkoustiK KeyZ

Acoustic piano module.

Features:

- 3 piano type:
Grand Piano, Concert piano P & Concert Piano F
- Velocity response
- Amp. envelope and micro-detuner
- HP/LP Filter
- 2 Fx (reverb & langer)

[info & download](#)

DSK DrumZ MachineZ

Analog drum machines sound module.

Features:

- 8 sound slots (C3 to C4 white keys)
- Level and pan control
- 8 stereo outs
- 226 samples
- 18 kits
- Midi automation
- Preset selector

[info & download](#)

DSK SixSenZe

Experimental Synth.

Features:

- Multi OSC, 5x3 basic waveforms
- Octave select and micro-detuner
- Amp. envelope
- Multimode Filter
- SuperSAW effect
- Midi automation
- Preset selector

[info & download](#)

DSK mini DrumZ

Vintage drum machines rompler.

Features:

- Multimode advanced Filter
- mini DrumZ features the sounds of 20 drum machines.

[info & download](#)

DSK Odisea

FM Synth.

Features:

- 2 Osc, 5 waveforms
- Octave select and micro-detuner
- Amp. envelope
- Filter
- easy programming
- Midi automation
- Preset selector

[info & download](#)

DSK ThoR

Monster FM Synth.

Features:

- 4 Osc, 5 waveforms, ADSR, pan (+ routing)
- Octave select and micro-detuner
- 4 Filter
- 3 advanced LFO (+ routing + 4 user memory slots)
- Fx (4 delay)
- Midi automation
- Preset selector

[info & download](#)

DSK Pleyades

FM Synth.

Features:

- 4 Osc with octave and microtuning control
- Octave select and micro-detuner
- Amp. envelope
- 2 Filter
- 3 LFO (with routing)
- Fx (2 delay)
- Midi automation
- Preset selector

[info & download](#)

DSK Harmonica

Small toy harmonica sound module.

Features:

- 5 variations

[info & download](#)

DSK Kaos

Experimental FM Synth.

Features:

- 3 Oscillators, ADSR, "FREE DRAW" mode
- Octave select and micro-detuner
- 3 aux. oscillators, waveform control
- 3 LFO - Effects (Space, delay, 1anger)
- 3x9 LFO / OSC matrix

[info & download](#)

DSK Strings

Classic strings instruments sound module.

Features:

- 2 layers, 22 waveforms
- Octave select and micro-detuner
- Effects (Delay, 1anger)
- Assignable Automation Capability

[info & download](#)

DSK Zeth

Experimental FM Synth.

Features:

- 3 Oscillators, ADSR
- Octave select and micro-detuner
- 3 Advanced LFO (multiple outs)
- Advanced Filter
- Effects (Space, delay, 1anger)
- Arpeggiator
- Assignable Automation Capability

[info & download](#)

DSK Brass

Classic brass instruments sound module.

Features:

- 2 layers, 23 waveforms
- Octave select and micro-detuner
- Effects (Delay, 1anger)
- Assignable Automation Capability

[info & download](#)

DSK Zith

Experimental rompler.

Features:

- 3 Layers (53 waveforms)
- Octave select, ADSR
- 3 Advanced LFO (multiple outs)
- Advanced Filter
- Effects (Space, delay, 1anger)
- Arpeggiator
- Assignable Automation Capability

[info & download](#)

DSK ElektriK Keys

Classic brass instruments sound module.

Features:

- 2 layers, 13 waveforms
- Octave select and micro-detuner
- Effects (Delay, 1anger)
- Assignable Automation Capability

[info & download](#)

DSK DreamZ

Experimental additive synths.
Ideal for pads.

Features:

- Experimental multi-form OSC
- LFO (osc controlled)
- 3 LFO assignables to cutoff, resonance, pan, sync...)

[info & download](#)

DSK B3X

Organ instruments sound module.

Features:

- 2 layers, 13 waveforms
- Octave select and micro-detuner
- Effects (Delay, Flanger)
- Assignable Automation Capability

[info & download](#)

DSK xXx

Experimental FM synths.

Features:

- 3 oscillators
(octave selector, microdetuner, xIter...)
- 3 LFO
(assignable to Pan, pitch, Width, Filter, ...)
- 3 Filters (assignables)
