

OuraPhat LE – Sound Phattener – VST plugin for Windows - V. 1.3

This plugin is released to show the sound of my upcoming exclusive FX plugin pack.

NOTE: This plugin is free but can not be redistributed. You must link to www.drspb.net
Check the Terms of License Agreement

Features:

-6 phat modules in one plugin (in this order):

- Valve Drive
- Stereo Ensemble
- Moog LP and HP Filters
- Soft Saturation
- Stereo Imager
- Output Amplifier with limiter

-Each module has a bypass switch

-Stereo and mono-stereo components

-Clear, intuitive, easy to use GUI

-Vintage sci-fi design

Limitations of this version:

-Notched Knobs

-Reduced Stereo Ensemble control [two modes - fixed lfo rates]

-Default preset only

Make some noise and watch your speakers!
