Here my Contribution for the
kvr-DC 2012:
aurelia-filtha
an Stereo-Vintage-Filter-Plugin

Description:

- aurelia-filtha is a Fullstereo-Lowpass-Filter-Plugin with following Specs:
- Special Low-Pass Filter (known from my easy-muug/Protege-Emus)
 - LFO 2 with 6 waves (sin/saw/ramp/trigon/pulse and s/h) with manual modulation-time (FREQ) and DEPTH-potis - Inverter (positive/negative)
 - Targets: LFO 1 - Cut-off - Resonance - off
 - LFO 1 with 5 waves (sin/saw/ramp/trigon/pulse) with Host-sync and Divisor
 - Inverter and Depth-poti - Target: Cutoff
 - Midi CC are shown at tooltips in brackets
 - Dry/Wet-poti - 32 Presets in Update-Version
 - Update 1.1 some little fixes and now 32 Presets !

Sorry for the very small Presetbank at moment,
but my darling expects our first child in December :=))
And I simply lacked the time for more ;)
With pleasure I will supply later, after the DC, an enlarged version,
also with more Presets...
Now i wish all the Contributors of the kvr-dc all the best
and Good Luck !
And thank YOU for testing my small Contribution in this Year...
and kind greetings :)
